

## **BUILDING ADVISORY COMMITTEE REPORT**

March 19, 2021

Construction on homes has really slowed down in Cedar Mesa Ranches. The primary reasons are:

- Weather
- High cost of building materials
- The inability to order and receive building materials on a timely basis

We are not any different from the rest of the Country.

The Committee continues to keep a neighborly eye on the properties that are under construction as most of the property owners are not on the property full-time.

Bob Sanders, Chair  
Building Advisory Committee
